

To Our Valued Customers,

March 18, 2020

We are sure you have received many letters from your suppliers: however, Wilson Tool International feels it is important for you to know what we are doing to meet the needs of our customers during these unprecedented times.

We're open and shipping orders.

To date, our US headquarters is fully operational. We are maintaining our industry leading on-times and our service continues to stay quick and responsive. Our Sales Engineer Team in the field respects your "no visitor" policies during this time. They are committed to staying in touch by phone and email and are in a position to continue supporting all your needs.

We have your back because we have backup.

We are the only independent tooling supplier with seven manufacturing facilities worldwide giving you additional backup if any one facility is greatly disrupted. Whether you're looking for press brake tooling, stamping tools, tablet tooling or punch tooling, we manufacture in multiple locations. We have options for you because we know not all tooling suppliers have backup.

Our critical suppliers and vendors are backed up.

Wilson Tool has incredible buying power. Along with carrying extra inventory to support our quick deliveries, our suppliers also carry additional inventory for us at all times. We only pick the best. Be confident that we have reviewed all of our critical suppliers and vendors and they are positioned to help protect you.

Our employees are number one.

We are taking the necessary precautions to ensure the safety of our employees. This will always be a Wilson Tool priority. I'm sure you'd agree, they are our most important priority. We need to keep them and their families safe so that they can continue serving you and keep your company up and running. We have many contingency plans in place to ensure your needs are supported.

Be assured we are doing everything possible to take care of our employees and you. If you have any questions or concerns, please reach out to our sales staff or call me directly.

Thank you,

Ron Palick

Director of North American Sales
